EdgeRMS

Award-winning restaurant management system that increases operational efficiency and features complete back office and compliance functionalities.

USED IN 800+ LOCATIONS

FEdgeRMS

\$

FOOD COST CONTROL

Complete food cost control system including ordering, inventory, menu and recipe management. This module gives insight into your profit margins and helps you control and reduce food cost.

LABOUR COST CONTROL

EdgeRMS includes Artemis, the most advanced labour system available today. Extremely easy to use and has a proven track record of reducing labour costs significantly. Artemis achieves labour savings without impacting service. Service levels should improve since Artemis ensures that staff are available to meet customer demand.

HR / TIMEKEEPING AND PAYROLL

15

EdgeRMS has an HR module that ensures you comply with employment regulations and with training requirements such as food hygiene and allergen training. The integrated clock in/clock out system provides an accurate timekeeping system which supports weekly, fortnightly or monthly payroll cycles. A complete out sourced payroll service is also available.

SMART CUSTOMER INTERACTION

The SCI module in EdgeRMS provides the facility to directly connect you with your customers. SCI allows you to message them with special offers and obtain valuable feedback. This interaction has been proven to increase sales.

ACCOUNTING & VAT RETURNS

EdgeRMS provides complete accounting functionality in the form of monthly profit and loss account and VAT returns.

HEALTH & SAFETY

The health and safety module ensures that you are compliant with all regulatory bodies and insurance companies. It provides you with a convenient snapshot of your compliance status at any point in time.

TRAINING

We provide full training for your nominated staff to get you started, and support as you roll out to your teams. After implementation our friendly and experienced support team are available to help you with any queries.
